CBC Radio, the radio broadcast network of Canada, is a favorite of mine. It carries in depth news and analysis, music, and discussions on topics which matter. When it was available for streaming internationally, I listened to CBC Radio on my smart phone and tablet computer. Recently, CBC has cut off access for foreign listeners - apparently due to royalty payment obligations. That is a true bummer for overseas CBC listeners abroad - whether Canadian citizens or others who simply like the programming. However, there is a workaround.

Use the list below to quickly open a browser tab with the Canadian KiwiSDR site from which you want to listen. If signals are weak or noisy, try another station or switch to a different SDR server if another one is available. You can tune around and find more stations on any of the SDRs. They not only receive AM / mediumwave, but work fabulously on shortwave too.

Visit the [Skywavelinux SDR Map](#) to find other receiving stations in your geographic area of interest. I have also set up lists for [Australian and New Zealand Mediumwave KiwiSDR](#) , [KiwiSDR India](#), and [Global Mediumwave WebSDR](#) for all who enjoy the news, music, and lively cultural programs each place offers.

How to use:

1. Select a station by clicking the appropriate button.
2. Click on a receiver location to open an SDR tab in your browser.

3. Each click on any receiver opens a new tab, so you can listen from more than one location.
4. This list of KiwiSDR receivers updates every six hours.
5. Click to download this [SDRs for Canada List \[PDF\]](#).

KiwiSDR: 21st Century Radio for the People

A listener's handbook by and for KiwiSDR enthusiasts.

Halifax - Moncton Area

CKST 1040

CKWX 1130

CJRJ 1200

KiwiSDR, Squamish, BC, Canada
KiwiSDR, Oak Harbor, WA, USA

Please be a fair listener on these radio servers. Avoid excessive time or opening multiple SDR tabs from the same site at once, as site operators detect and block users or frequencies who draw excessive bandwidth.
